

As you consider the conditional approval for LightSquared, I write to ask you to preserve the integrity of the nation's GPS system. I am opposed to what LightSquared has been granted

Last year, the federal government shut down the Loran navigation system, making recreational mariners solely reliant on GPS for all electronic navigation needs. Like so many other GPS users around the country, GPS is now integrated into our daily outings, and we look to the FCC to protect the integrity of the GPS signal.

All three of my boats are equipped with GPS and two of those are with chart plotters which means I need good, accurate and reliable GPS signal services. I travel the east coast and go off shore 70 plus miles and need the GPS to work.

I agree with both Boat US and the Coalition to Our Save GPS "Coalition to Save Our GPS and FCC File No. SAT-MOD-20101118-00239" this approval is bad
