

When I spoke to the phone company, they lied and said they are getting nothing out of the third-party billing. They offer it as a convenience. What a bunch of crock. AT&T is making money off of this arrangement.

There should be NO Third-Party Billing unless I authorize it.

What they are doing now is accepting bills, passing it on without the consumer being aware, and collecting their slice of the pie.

I have encountered three such bills tacked onto my AT&T statement.
