

Waiver Request, re: WQHV404 ) WT Docket #11-124

To the Commission:

I have read the Commission's announcement regarding Chevron's waiver request. Given the antenna beamwidths and power levels indicated, and particularly, given that the stations are offshore, I favor granting Chevron's waiver request post-haste. With the hurricane season bearing down on Chevron and the rest of us, this waiver could provide an important link, and the advantages of the waiver outweigh any potential detriment foreseeable at this time. I would merely condition a grant of the waiver upon Chevron having to take all steps necessary (at any cost) to correct any interference caused to protected federal stations should an interference complaint arise. Accordingly, with this caveat in mind, it would be in the public interest to grant Chevron's request.

Respectfully submitted:

/s./ James Edwin Whedbee, M.Ed.
