Re: Ex Parte Presentation Notice, Video Device Competition, MB Docket No. 10-91; Commercial Availability of Navigation Devices, CS Docket No. 97-80; Compatibility Between Cable Systems and Consumer Electronics Equipment, PP Docket No. 00-67

Dear Ms. Dortch:

This letter is submitted pursuant to 47 C.F.R. § 1.1206.

On July 28, 2011, Jeffrey Lawrence, Director Global Content Policy of Intel Corporation, and the undersigned met with the following persons:

- Joshua Cinelli, Media Advisor to Commissioner Copps
- David Grimaldi, Chief of Staff and Media Legal Advisor to Commissioner Clyburn
- Erin McGrath, Acting Media Legal Advisor to Commissioner McDowell.

At the meetings, Mr. Lawrence discussed important industry developments in the video ecosystem, such as DLNA's release of the Commercial Video Profile, with strong endorsement from the cable industry, and the ongoing efforts to grow and improve adoption of DTCP-IP. He applauded the Commission's efforts to promote adoption of IP-based interfaces with the announcement of an effective date for amended Section 76.640(b)(4)(iii). He reiterated Intel's support for open industry standards and discussed the innovation opportunities created by standard interfaces. Intel continues to be a strong proponent of open ecosystems enabled by industry-agreed standards, which Intel prefers over regulatory mandates. Mr. Lawrence concluded that Intel continues to advocate for, and desires to work with all parties toward, an industry-agreed standard IP interface.

In accordance with Section 1.1206 of the Federal Communications Commission rules, this letter is being provided to your office. A copy of this notice has been delivered via email to the persons listed below.

Ms. Marlene Dortch, Secretary
