

My computer has not allowed me to log into my personal AT&T account, lgay@att.net and I think someone is playing games with me. I drafted this letter earlier and it explains all my concerns. A printed version of this letter is following in the U.S. mails. Members of Congress will also get copies: I now find my computer will not let me copy this letter and paste it here, as is normally permitted under Windows and Microsoft programs. I will try and print it out in the meantime and mail it. Call me at 703-841-1978 if you have questions. Thank you. Lance Gay
