*Re: Petition from Sprint Nextel to Allow Wideband Operations in 800 MHz
Enhanced Specialized Mobile Radio Service Banks, WT Docket No. 11-110*

Dear Ms. Dortch:

On August 8, 2011 Christian Bergljung Erika Tejedon, and the undersigned, of Ericsson, spoke by teleconference with Jim Schlichting and Tom Peters of the Wireless Telecommunications Bureau. The parties discussed the protection criteria that would be needed for adjacent services if wideband operations are authorized for the ESMR band. Specifically, Ericsson sought clarifications on the protection criteria for the NSPAC band 806-809/851-854 MHz assuming Band 5 UE or Band 26 UE emissions, appropriate measurement bandwidth assuming FCC part 90.691 and applicable FCC rules presuming wideband technologies in the ESMR band.

Sincerely,

/s/

Mark Racek
Ericsson
Director of Spectrum Policy
