Re: Consumer Information and Disclosure Public Notice CG Docket No. 09-158, CC Docket No. 98-170,
WC Docket No. 04-36

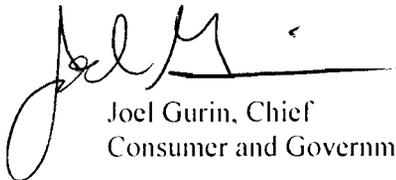

Dear Ms. Dortch:

On March 28, 2011, the FCC met by phone with broadband Internet service providers to discuss technical issues related to the Commission's trial for testing and measurement of fixed broadband performance.¹

The meeting focused on a discussion of privacy issues relating to the release of data collected in the trial. FCC staff discussed a proposal to protect personally identifiable information in the release of trial data by replacing street address information with high-level census block information and masking portions of Internet Protocol addresses. Views were expressed that even information at this aggregated level would retain significant research value.

A full list of the meeting attendees is attached to this filing.

Sincerely,

Joel Gurin, Chief
Consumer and Governmental Affairs Bureau

Walter Johnston, Chief
Electromagnetic Compatibility Division/OET
