

IS IWRELAY violated FCC rules? They gave away a prize for cruise trip. I considered it called incentive. We have to sign up then send an emails to other Deaf in community to count a point as email. I think it is a wrongful! They made us to work for them. They made a profit from government by minutes of calls. Now they take an advantage of us. We do pay our tax. It should not use that system. Just put name alike raffle to win it.
