Washington, DC 20554

Dear Ms. Dortch,

I'm writing today regarding IB Docket No. 11-109. I support LightSquared's plans to build a new 4G wireless broadband network because America needs more broadband capacity. I know that the GPS industry has concerns, but the FCC should not let this get in the way of LightSquared's plans. After all, the GPS industry has known about LightSquared's plans for years and the GPS industry has done nothing to avoid the issues they now have. Don't let GPS's mistakes keep America from benefiting from expanded broadband options like LightSquared.

Kindest Regards,

A handwritten signature in dark ink, appearing to read "Orlando Sedillo". The signature is fluid and cursive, with a large loop at the beginning and end.
