

AT&T is my home phone provider another party Enhanced Services Billing, Inc charged me \$15.85 for services that we never ordered. I called them they were complete jerks to me finally they agreed to take off the bill. How many people get screwed monthly by them because they didn't catch this scam. It must stop when is the FCC going to stop this act of cramming. These people think they are behind reproach. I called ATT&T they said they can't do anything about it why???
