**Federal Communications Commission      Re: Low Power FM Community Radio**

**Gentlemen:**

**There is a need for LPFM Community Radio in Charlotte County, Florida, to serve the local people and organizations in a way that services from large broadcasters from hundreds or thousands of miles away cannot provide. Avenues of communication locally are important and need to be developed to enhance contact and the sharing of views, local talent, public affairs and in many other ways. Please allow this valuable means to be made available right here in our own community.**

**Ted Zawistowski, chair, SJC UUFCC**
