Subject:RE: Need Clarification

Date:Wed, 22 May 2002 11:12:55 -0600

Tom,

This is written clarification of the agreements.

The equipment installed at the six regional sites in Phase One of the Agreement becomes the property of the Navajo Nation. The Navajo Nation Department of Head Start will own all the equipment provided in Phase 1 of the agreement.

Regarding the equipment to be provided in Phase 2 - the equipment for the wireless service between the Chapter House and the Head Start buildings. This is part of the service being provided by OnSat and therefore the property of OnSat. This allows OnSat to maintain the latest updates to software and hardware as part of the connection service fee. Phase 2-of the agreement provides for an Installation Fee and a Recurring connection fee with OnSat providing the equipment necessary to provide the service.

Call me on my cell phone if you have any questions.

Dave

Subject: Need Clarification

Dave:

Need a quick clarification. Once the hardware for this system is purchased, they would
