Ms. Marlene S. Dortch
Secretary
Federal Communications Commission
445 12th Street S.W.
Room 2-B450
Washington DC 20554

Re: ET Docket Nos. 04-186, 02-380

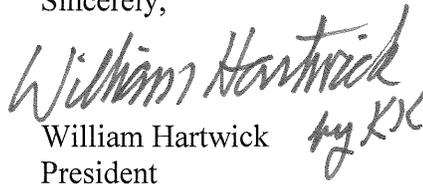

Dear Ms. Dortch:

This is in response to a staff request that Needles Community TV Club, Inc. re-confirm data supplied in its letter of April 4, 2011.

Station K30BQ, located at coordinates 35° 02' 8.5", 114° 22' 16.7", is fed by translator K50CY located on Hayden Peak near Kingman, Arizona at coordinates 35° 04' 53.3", 113° 54' 18.7". K50CY receives Phoenix Station KPNX-TV, channel 12, via TV translator relay facilities located on Smith Peak, Arizona, coordinates 34° 03' 54.9", 113° 21' 17.0".

The TV Club does not believe a waiver is needed for protection of its facilities as against TV white space devices, but if one is, it is respectfully requested so as to ensure continued interference-free reception of free television to residents in its service area.

Sincerely,

William Hartwick
President
