In TA 223-419, GCI is adding a new residential plan, the Intrastate No Limits Home Phone Plan. TA 223-419 is the intrastate long distance component of the No Limits Home Phone Plan bundle (\$19.99/month), which also consists of a local component and an interstate component:

- GCI Local No Limits Home Phone Plan (\$7.99/month);
- GCI Intrastate No Limits Home Phone Plan; and
- GCI Interstate No Limits Home Phone Plan (\$12.00/month combined intrastate/interstate long distance bucket with unlimited intrastate and interstate Dial Station Calling).

In areas where GCI Local service is available, to get any component a customer must subscribe to all three components. In areas where GCI local service is not available, GCI offers three progressive options depending on the availability of GCI's wireless service and the availability of GCI's long distance network.

Sincerely,

Cynthia L. Lynch
