Washington D.C. 20554

August 29, 2011

Dear Chairman Genachowski and Commissioners:

I am writing today regarding an issue on the 11-65 docket, which is AT&T's request to acquire T-Mobile USA and create one expansive wireless network.

As the businesses of Jefferson County face a challenging economy, they need every available tool for success at their disposal. AT&T could play a vital role in equipping them for economic competitiveness by merging with T-Mobile USA to provide a wireless broadband network that facilitates effective communication and supports competitive business applications.

With the power of the 4G LTE network, Jefferson County's businesses can, for example, add efficiency measures to their logistical operations. They can also introduce e-commerce strategies such as online advertising to broaden their customer base or reach out to potential employees.

In addition to specific applications, a stronger mobile broadband network can encourage innovation. This effect of the merger may prove to be the most important, as new business strategies and "thinking outside the box" will be critical to keeping Jefferson County businesses vibrant throughout the 21st Century.

Please work together to approve this proposal.

Sincerely,

A handwritten signature in black ink that reads 'Brandon Bullard'.

Brandon Bullard

Executive Director, Jefferson County Chamber of Commerce

CC:

Chairman Julius Genachowski

Commissioner Michael Copps

Commissioner Robert McDowell

Commissioner Mignon Clyburn
