Dear Ms. Dortch:

In response to a question from staff, Level 3 provides the following information. Of a total of 37 entities with which the combined Level 3 and Global Crossing have peering relationships, 20 provide transit service in North America, based on BGP route announcements and Level 3's commercial experience. A transit provider would be an entity that provides internet transit service to enterprise and/or wholesale customers.

These are set forth in the attached confidential appendix.

Sincerely,

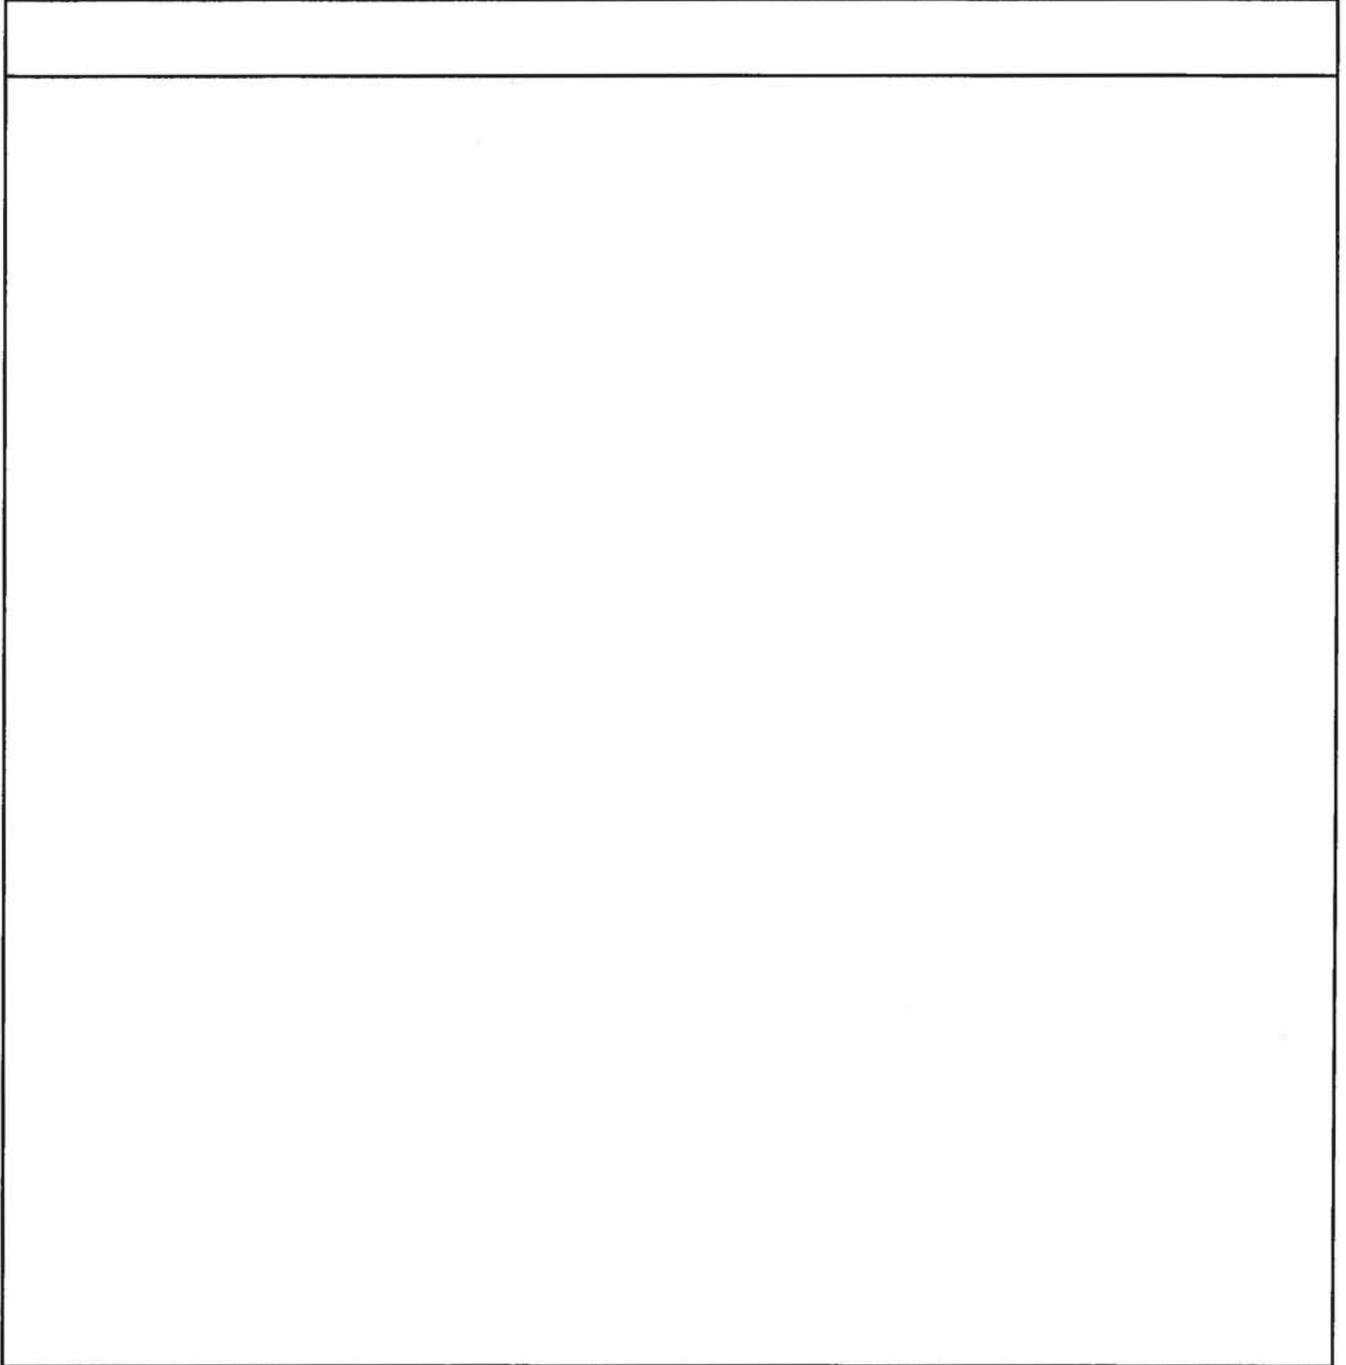

John T. Nakahata
Counsel to Level 3 Communications, LLC
