FCC Mail Room

September 1, 2011

Dear Chairman Genachowski,

I am writing you about the pending AT&T / T-mobile merger. I support the merger and hope you and the other members of the FCC will approve it. As a former employee, active Pioneer, and stock holder, I see this acquisition as fair and strategic business. It seems that Verizon currently holds the market share and this move would enable AT&T to remain competitive in the ever changing communications arena. I retired in 1981 and I want the company to remain strong so that my pension and investment will be secure for me and my extended family. Additionally, it seems that customers will see a marked improvement in the cell phone coverage. This is a unique opportunity for a US based company to expand, while keeping and creating jobs here in the US. I encourage you to approve this merger as it will enhance the lives of so many people. Thanks sincerely )  
for your time and consideration.

Truly yours,

Mrs. Edith Tindall
