**(3) Summary of Call Statistics by Month**

During the reporting period of September 21, 2010<sup>2</sup> through May 31, 2011, no 911 emergency calls were placed by users of TerreStar mobile earth terminals (MET) which required termination to Intrado's emergency call relay center (ECRC) for PSAP routing. Although TerreStar received no 911 calls during the period, it routinely runs internal 911 test calls to ensure full functionality of 911 call routing.
