

Hi, I recently got two \$39.95 charges on my ATT bill. I went in circles,waited 40 minutes, got passed around to get these bogus charges off of my bill. I found out that this is called crammingâ and it is going on all over with third party bogus companies adding charges to my ATT bill!!!

Amazingly ATT checks who I am before discussing my bill, yet allows a fraudulent company to add charges on my ATT bill and then hold me responsible for getting the charges removed!
