Re: Permitted Oral *Ex Parte* Presentation
GN Docket No. 11-117, PS Docket No. 07-114 and WC Docket No. 05-196

Dear Ms. Dortch:

On November 8, 2011, Scott Goodrich, President, Product Division, Cellular Specialties, Inc. (“CSi”), William J. “Skip” Crilly, Jr., CTO, CSi, and Michael Scullin, Principal Telecommunications Policy Advisor to CSi met with Julius Knapp, Chief of the Office of Engineering and Technology (“OET”), Ira Keltz, Deputy Chief, OET, Alan Stillwell, Deputy Chief, OET, Bruce Romano, Deputy Chief (Legal), OET, Walter Johnston, Chief of the Electromagnetic Compatibility Division, OET, James Miller, Senior Attorney Advisor, Electromagnetic Compatibility Division, OET, and David Siehl, Policy Branch, Public Safety and Homeland Security Bureau (“PSHSB”).

During the meeting CSi presented additional information concerning CSi’s Co-Pilot Beacons (“CPBs”) and their utility as a solution for E911 and location based services (“LBS”). The issues discussed included a brief overview of the company, the technology, it’s utility in helping wireless carriers comply with the Commission’s location accuracy requirements, and how CPBs facilitate E911 and other location based services for in-building and/or distributed antenna system (“DAS”) installations of CDMA 2000/1xEV-DO cellular networks, particularly. Several carrier tests/trials were also discussed, as well as the development direction for additional CSi products going

forward. A copy of the materials presented is attached and has been provided to the meeting participants.

Please contact the undersigned if you have any questions.

Sincerely,

/s/ _____
Michael L. Scullin
