

I am charging the Chicago News Media with negligence in reporting vigilantism. For years they have passed it off as gang violence. they are believing the Atheist; w/o knowing of their existence. Unaware that the Athiest (North-Eastern Asia) have been thinking @ Chicago since the days of the Douglas POW Camp. Now days; they are being shipped to America (Mexico included) by the Russian Mafia (involved in prostitution in China). Russia ratified a Constitution in 2008. Indiana is more aware due to several defense contractors being spied on by the Communist (North-Western Asia). They bitch me out @ the Indiana Fair Grounds almost every weekend and @ home (IHA Housing). The Gladys Carr (formerly of Memphis in the 1930-40s) and Jesse James Taylor family are biggest victims in the chicagoland area. His Cadillac DeVille was vandalized in 2005; my 1991 F-150 was from 2004 to 2007 (Chicago, Vandalia, & Indy). We must get the general public to understand the effects of tellapathy. We must assure them that all babies are DNA tested @ birth; hair samples are for DNA not Drugs. We DNA test immigrants; if positive we put them to death. This type of vigilantism is not covered by Allstate, State Farm; or any auto insurance company.
