**TERMS OF SERVICE** — Subscriber Agreement: This agreement is provided to you at activation and includes any documents you are asked to sign, the detailed service terms (in this guide and other relevant material) and a specific Terms and Conditions document for the services selected. General Terms: If you agree to maintain service for a minimum term, the term begins when you accept the Service Agreement (e.g., signature, activate service, use phone, etc.). You may terminate any line of service before its term ends by calling us; however, you will be responsible for an EARLY TERMINATION FEE (ETF) for each line/number terminated early — except for terminations consistent with our policy. An Early Termination Fee (ETF) of up to \$50/mo. for Advanced Devices, and up to \$200/mo. for other devices, applies if you terminate service early. The ETF is prorated and is calculated by taking the months remaining on your Service Agreement times \$20 for Advanced Devices, with a maximum of \$50, and a maximum of \$100. For all other devices, the prorated ETF per-line policy is calculated by taking the months remaining times \$10 with a maximum of \$200 and a maximum of \$50 will still apply. Details available at sprint.com. Payment of the ETF does not satisfy other obligations owed to us, including Term commitments with other lines or service/equipment charges. All offers, including plans and customizable/upgrade offers are available from 11/20/11 to 12/31/11 unless otherwise stated — we reserve the right to cancel offers early or extend offers without notice. Offers are subject to credit approval. An account opening limit may apply — ask for specific amount. A spending limit charge of \$4.99 per month per account may apply for accounts enrolled in recurring automatic payments. Monthly service plan charges occur even if your service is turned off for exceeding your spending limit or nonpayment. Offers may not be available everywhere or combinable with other promotions/options. Coverage is not available everywhere and varies by service — see Sprint Plans Guide or visit sprint.com/coverage for details. Monthly charges exclude taxes, Sprint surcharges (incl. USF charge (varies quarterly), credit recovery and administrative fees, & state/local fees by area (e.g., in some areas up to 10% but in most areas less than 3%)). Sprint surcharges are not taxes or gov't required charges and are subject to change without notice. Up to a \$30 phone activation fee applies to new activations, certain service plan programs or upgrades of phones or devices ("phones"). A reconnect fee of up to \$36 may apply to reestablish service on all accounts that have been disconnected for nonpayment. A deposit, in most instances between \$50 and \$750 (but sometimes up to \$1000), may be required per line to establish service. Our services will only work with our phones — not all services are available with all phones or on all networks. Monthly service charges are not refunded or prorated if service is terminated or modified before your billing cycle ends. All phone usage, including incoming/outgoing calls, incurs charges unless specified otherwise. Except where specified, included plan minutes are not good for off-network roaming calls. International roaming rates for voice and data services are additional and will vary. On calls that cross time periods, minutes are generally deducted or charged based on the call start time. Unused monthly plan minutes do not carry forward. Partial minutes of use are rounded up to the next whole minute. A detailed bill provides comprehensive call details to customers, including phone numbers dialed and received, call lengths, call types and call times. A \$1.59/month per account fee will apply if you choose to receive a paper invoice with detailed billing. To avoid this fee, you can elect to receive Sprint's bill in summary format of the paper invoice. Detailed billing information is available for all customers by visiting your Sprint account online.
