

Any combination of AT&T T-Mobile, Verizon Wireless T-Mobile, AT&T with Sprint Nextel, Verizon Wireless with Sprint Nextel or AT&T and Verizon Wireless would severely reduce competition further and make the national post-paid market for wireless phone service now an anti competitive oligopoly into a virtual near duopoly. If this AT&T T-Mobile merger happens what's to stop Verizon Wireless from buying Sprint and literally making market a duopoly and then AT&T and Verizon merging to be only 1 carrier -- an exclusive monopoly.
