

Clear Wireless stated, "Houston Texas state government increased state taxes for Internet Services and Broadband." Unfortunately, I hold a service contract and a bank draft with Clear Wireless. September 8, 2011 my payments change from \$72.72 to \$74.79 per month without notification. Clear have been contacted to justify their payments increase and why I was not informed of taxes increases before taking the \$74.79 out of my bank account without my knowledge. Several attempts were rendered to receive in writing a statement verifying that taxes were increased other then verbal communication by Clear Representatives (1-800-253-2794).
