

To Whom This May Concern At The Federal Communications Commission,

I applauded the FCC when they acknowledged the concerns of critics to the AT&T T-Mobile merger that the FCC should merge its review of both transactions (spectrum license transfers) of T-Mobile USA and Qualcomm wireless spectrum together. The concern was as bad as both transactions may appear to be individually they would together be far worse. The FCC combined its review of the merger with Qualcomm. T-Mobile takeover was found to violate public interest, Chairman wanted to allow Qualcomm wireless sale though but agreed to restart clock on this docket for this transaction again. I will soon file evidence of AT&T being a spectrum hog to this docket (filed in T-Mobile merger docket) to urge dismissal of this sale also.
