

Plese forward to the appropriate Dept as I did not see the dept with which to file this complaint. The new Jenny Craig Ad featuring Mariah Cary Is indecent. The FCC needs to be involved to protect families from Ads which are soft porn airing on many stations during hours in which children (and adults who maintain family values) may be exposed to not only offensive, but illegal advertising. This is an issue that affects the nation. The FCC needs to insist these ads are removed from public viewing.
