**Re: Notice of *Ex Parte* Presentation
WT Docket No. 11-18; RM-11592**

Dear Ms. Dortch:

On December 14, Vulcan Wireless LLC (“Vulcan”) representative Michele Farquhar, along with C Spire Wireless representative Doug Hyslop, spoke by telephone with Louis Peraertz, Legal Advisor to Commissioner Clyburn, to discuss the critical need for a condition on the AT&T-Qualcomm acquisition that would help restore a consolidated Lower 700 MHz band class.

During the call, the parties discussed the technical issues associated with a condition to reconsolidate the Lower 700 MHz band classes, as discussed in Vulcan’s December 12 *ex parte* filing in this proceeding.¹ They also discussed the results of a “real world” study, funded by a consortium of several Lower 700 MHz A Block licensees,² intended to prove or disprove the unsubstantiated claims previously submitted to the FCC and 3GPP by AT&T and Qualcomm, among others, regarding the need for establishing two separate band classes to govern only three spectrum blocks.

Pursuant to Section 1.1206(b) of the Commission’s rules, I am filing this notice electronically in the above-referenced dockets. Please contact me directly with any questions.

Respectfully submitted,

/s/ Michele C. Farquhar
