INTELSAT APPLICATION FOR TRANSFER OF CONTROL

This application is one of several simultaneously filed applications seeking Federal Communications Commission (“FCC”) consent to a transfer of control of all of the licenses and authorizations (the “Intelsat Licenses”) held by Intelsat License LLC, Intelsat New Dawn Company, Ltd., Intelsat USA License LLC and Intelsat General Corporation (collectively the “Intelsat Licensees”) pursuant to a public offering of newly issued voting shares by Intelsat Global Holdings S.A. (“Intelsat” or the “Applicant”), possible private placements of newly issued voting shares and subsequent voting share sales by current shareholders (the “Transactions”).¹ The Intelsat Licensees are now indirectly controlled by BC Partners Holdings Limited (“BCP”). Following the Transactions, it is likely that no single entity will hold 50 percent or more of the voting shares of Intelsat. Similarly, no single entity may then have the power to elect a majority of the Intelsat Board of Directors (“Intelsat Board”). Accordingly, Intelsat seeks Commission consent for the transfer of both *de jure* and *de facto* control of the Intelsat Licenses from BCP² to public ownership.

A. Description of Intelsat and the Intelsat Licensees

Intelsat is the leading provider of fixed satellite services (“FSS”) worldwide, serving the media, network services, and government customer sectors. Intelsat owns and operates a global

¹ Intelsat Global Holdings S.A. is the entity recently approved by the FCC to control indirectly the Intelsat Licensees pursuant to a *pro forma* corporate reorganization. See *Intelsat Application for Pro Forma Transfer of Control*, File Nos. SAT-T/C-20110810-00160, SAT-T/C-20110811-00161, SES-T/C-20110811-00948, SES-T/C-20110812-00963 (granted Oct. 13, 2011), and 0004825139 (granted Oct. 19, 2011) (“*Intelsat Pro Forma*”). This corporate reorganization has not yet been completed, but will be consummated prior to the Transactions contemplated by this application.

² Although BCP may no longer control the Intelsat Licenses after the Transactions, BCP will maintain some influence so long as it continues to hold a significant minority investment interest.

satellite system that provides space segment capacity used for a wide array of communications services, including voice, video, data, and Internet connectivity. Intelsat's fleet of satellites covers more than 99 percent of the world's populated regions, serving customers that range from large telecommunications carriers and broadcasters to corporate networks and Internet service providers. Intelsat's customers include distributors that resell capacity, as well as customers that purchase capacity for their own use.

Intelsat is the indirect parent company of the four Intelsat Licensees:³ (1) Intelsat License LLC holds 45 non-common carrier space station authorizations, 145 non-common carrier earth station licenses, and 4 private land mobile radio licenses; (2) Intelsat New Dawn Company, Ltd. holds 1 non-common carrier space station authorization; (3) Intelsat USA License LLC holds 4 international Section 214 authorizations; and (4) Intelsat General Corporation holds 1 international Section 214 authorization.⁴

³ Intelsat is also the indirect parent company of two entities holding non-U.S. licensed satellites on the Permitted Space Station List. Consistent with Commission rules and precedent, Intelsat will notify the Commission of the transfer of control of non-U.S.-licensed satellites on the Permitted Space Station list following consummation of the Transactions. *See* 47 C.F.R. § 25.137(g); *Amendment of the Commission's Space Station Licensing Rules and Policies*, 18 FCC Rcd 10760, 10880 (¶¶ 326-327) (2003).

⁴ Intelsat's continuing obligations under the Public Services Agreement with the International Telecommunications Satellite Organization ("ITSO") are unaffected by the Transactions.

B. Current Ownership and Control of Intelsat and the Intelsat Licensees

As depicted in Attachment 1,⁵ immediately prior to the Transactions, the Intelsat Licensees will be owned and controlled through various wholly owned subsidiaries of Intelsat. Intelsat is ultimately owned by investors and entities previously approved by the Commission as part of the *Intelsat-Serafina Order* and the recent *Intelsat Pro Forma*.⁶ Specifically, entities controlled by BCP, a UK-based investment firm organized under the laws of Guernsey, indirectly own approximately 71.9 percent of the voting equity interests in Intelsat. Entities ultimately controlled by Silver Lake Group, L.L.C. (“SLP”), a U.S.-based investment firm, indirectly own approximately 15.87 percent of the voting equity interests in Intelsat. Other investors, including Credit Suisse, Ridgemont Equity Partners (f/k/a/ BAML Capital Partners) and members of Intelsat management, hold the remaining equity interests in Intelsat.

As explained in the *Intelsat-Serafina Order*, BCP controls the Intelsat Licensees.⁷ BCP has *de jure* control by virtue of indirectly holding more than 50 percent of the voting ownership in Intelsat. BCP also holds *de facto* control because it has the power to elect a majority of the six members of the Intelsat Board. Currently, one board seat is held by Intelsat’s Chief Executive Officer.

⁵ The ownership of the Intelsat Licensees depicted in Exhibit 1 to Attachment 1 contemplates the completion of the recently approved *pro forma* corporate restructuring. Upon restructuring, the interests of the BCP and Silver Lake funds in Intelsat will be held through intermediate holding companies.

⁶ *Intelsat Holdings, Ltd. and Serafina Holdings Limited, Consolidated Application for Consent to Transfer of Control of Holders of Title II and Title III Authorizations, Memorandum Opinion and Order, 22 FCC Rcd 22151 (2007) (“Intelsat-Serafina Order”); Intelsat Pro Forma, supra note 1.*

C. Description of the Transactions

Intelsat and its current owners plan to offer newly issued voting shares of Intelsat to the public and also may sell such shares through private placements.⁸ Thereafter, current owners may reduce their shareholdings through market transactions or secondary offerings. The timing and volume of the Transactions depend upon prospects reflecting industry and company factors and general market conditions. After the Transactions, Intelsat anticipates that its shares will most likely be listed on a major U.S. stock exchange. The proceeds of the public offering will be used for general corporate purposes, including the repayment of portions of Intelsat's indebtedness.

D. Ownership of Intelsat Following the Transactions

Following the Transactions, Intelsat will be owned by its existing owners (*i.e.*, BCP, SLP and other investors as noted above in Section B) plus the owners of the newly issued shares. The issuance of new shares and their subsequent purchase as part of the planned transactions will dilute the equity interests of Intelsat's current owners. Thereafter the shares of Intelsat will be publicly traded and Intelsat's current owners may elect to reduce further their ownership interests, including through follow-on secondary offerings to the public. The percentage of voting interest each shareholder then will have in Intelsat will depend on the number of common shares issued and sold, which as noted above is dependent on market prospects, and thus not currently ascertainable.

Intelsat anticipates, however, that it is likely that no single entity or individual will hold 50 percent or more of the voting equity of Intelsat after the Transactions. Also, in situations where control passes to the public shareholders, BCP would no longer control the vote of an

⁸ Prior to the consummation of the public offering, Intelsat Global Holdings S.A. will be renamed Intelsat S.A.

absolute majority of shares of Intelsat, either through indirect ownership of 50 percent or more of the equity in Intelsat or pursuant to its voting proxy from SLP.⁹ The voting interests of other current owners of Intelsat, including SLP, Credit Suisse, Ridgemont Equity Partners and members of Intelsat management, will also be diluted and none would hold a ten percent or greater interest after the transfer of control contemplated in the Transactions. It is expected under most scenarios that the transfer of control for which approval is sought would result in holders of the new publicly-traded shares owning more than 40 percent of Intelsat. Intelsat will provide exact ownership percentages for all ten percent or greater shareholders in its notice of consummation following the proposed transfer of control.

E. Governance and Management of Intelsat Following the Transactions

Intelsat will continue to be governed by its board following the proposed offering. However, the composition and control of the Intelsat Board will change following the Transactions. Intelsat anticipates that the new Intelsat Board will have 8 members to be elected by shareholders at a general meeting. Shareholders will be entitled to one vote per common share at any general meeting. There will also be a governance agreement pursuant to which BCP and SLP, based on their share ownership in Intelsat, will be entitled to nominate a number of directors for election to the Intelsat Board. Based on the anticipated changes in ownership, however, there is a significant chance that the governance agreement will not empower BCP to continue to elect a majority of directors to the Intelsat Board.

The Transactions are not expected to result in the immediate replacement of any existing member of Intelsat's management. In particular, Mr. David McGlade will continue as Intelsat's

⁹ The voting proxy SLP III Investment Holding S.à r.l. will grant to Serafina S.A. (and its owner BCP) would not be operative if entities controlled by BCP and SLP collectively held less than 50 percent of the equity of Intelsat following the proposed offering. *See Intelsat Pro Forma, supra* note 1.

Chief Executive Officer and remain on the Intelsat Board. Attachment 2 provides a list of the officers of Intelsat and the Intelsat Licensees.

II. PUBLIC INTEREST ANALYSIS

Pursuant to Sections 214(a) and 310(d) of the Act, the Commission must determine whether the proposed transfer of control would serve the public interest, convenience and necessity.¹⁰ In making this determination, the Commission must first find that the proposed transaction complies with the specific provisions of the Communications Act, other applicable statutes, the Commission's rules, and federal communications policy.¹¹ The Commission next considers whether the proposed transaction would result in any public interest harm and employs a balancing test, weighing any public interest harms against the public interest benefits. The proposed transfer of control does not violate any law or rule, and, for the reasons discussed below, it will strongly promote the public interest.

Reduction of Debt. The planned issuance of new shares would provide an immediate capital infusion. The proceeds from the newly issued shares will enable Intelsat to repay a significant portion of its debt. The reduction of Intelsat's debt, enhancement of its working capital accounts and its access to the public equity markets will greatly enhance Intelsat's position in the competitive marketplace. The FCC previously has recognized that public

¹¹ *See, e.g., Constellation, LLC and Intelsat Holdings, Ltd. (Intelsat/PanAmSat Merger)*, Memorandum Opinion and Order, 21 FCC Rcd 7368, 7378 (¶ 17) (2006); *Verizon Communications Inc. and MCI Inc., Applications for Approval of Transfer of Control*, Memorandum Opinion and Order, WC Docket No. 05-75, 20 FCC Rcd 18433, 18443 (¶ 16)(2005); *SBC Communications Inc. and AT&T Corp., Applications for Approval of Transfer of Control*, Memorandum Opinion and Order, WC Docket No. 05-65, 20 FCC Rcd 18290, 18300 (¶ 16) (2005).

ownership of an FCC satellite licensee is likely to benefit the public interest by providing financial stability and by allowing it to reduce debt.¹²

Management Continuity. While the Transactions will result in significant new investment, Intelsat's current management structure would be preserved. As explained above, the proposed offering of common shares is not expected to result in the immediate replacement of any existing Intelsat officers. In particular, Mr. David McGlade will continue as Intelsat's Chief Executive Officer and will remain on the Intelsat Board. Continuity of Intelsat management will serve the public interest by ensuring that Intelsat continues to provide high quality services to existing and future customers.

No Competitive Harm. Moreover, the Transactions will not result in any competitive harm. Intelsat operates in a highly competitive communications marketplace. Intelsat's existing shareholders do not hold an attributable interest in any telecommunications, satellite, or media company serving any U.S. market that Intelsat also serves.¹³ In addition, Intelsat does not expect that any entity holding a controlling interest in another satellite operator will acquire an attributable interest in Intelsat through the purchase of publicly-traded shares. It is thus highly unlikely that the Transactions would result in the consolidation of any satellite interests.

Reduction in Foreign Ownership. The proposed transfer of control of the Intelsat Licensees does not raise any foreign ownership concerns. As an initial matter, the foreign ownership provisions set forth in Section 310(a) and (b) of the Act are not applicable to the

Transactions.¹⁴ No foreign government or its representative would hold any of the Intelsat radio licenses. Further, the Intelsat Licensees do not hold any common carrier, aeronautical or broadcast radio licenses. Additionally, the Transactions would reduce the total amount of foreign ownership in Intelsat. Intelsat likely will list its shares on a major U.S. stock exchange. The sale of these U.S. listed shares will reduce the existing amount of non-U.S. ownership in Intelsat held by entities controlled by BCP, a UK company organized under the laws of Guernsey.¹⁵

Continuity of National Security Protections. Finally, Intelsat reaffirms that the commitments and undertakings in the October 9, 2007 Letter to the Executive Branch Agencies attached as Attachment C to the *Intelsat-Serafina Order* will continue to be binding after the proposed transfer of control.¹⁶

For all of the forgoing reasons, Commission approval of the proposed transfer of control of the Intelsat Licenses will serve the public interest.

III. TREATMENT OF PENDING APPLICATIONS

In addition to the licenses and authorizations identified in these applications, the Intelsat Licensees have various applications pending before the Commission, and prior to grant of these applications or consummation of the proposed transfer of control, may file additional applications, or have currently pending applications granted. Intelsat therefore requests that, consistent with Commission precedent, the grant of these applications include authority for the

transfer of control of: (i) all licenses and authorizations issued or assigned to the Intelsat Licensees during the pendency of the applications and prior to the consummation of any approved transaction; and (ii) all applications pending at the time of consummation of the proposed transfer of control. The Intelsat Licensees will supplement, as necessary, any filed applications that are pending upon the consummation of the proposed transfer of control to reflect the Intelsat Licensees' new ownership.¹⁷

Previously Revoked Authorization – Response to FCC Form 312 Question 36

The Intelsat Licensees have never had an FCC license “revoked.” However, on June 26, 2000, the International Bureau “cancelled” two Ka-band satellite authorizations issued to a former Intelsat entity, PanAmSat Licensee Corp. (“PanAmSat”),¹ based on the Bureau’s finding that PanAmSat had not satisfied applicable construction milestones.² In that same order, the Bureau denied related applications to modify the cancelled authorizations. PanAmSat filed an application for review of the Bureau’s decision, which the Commission denied, and subsequently filed an appeal with the United States Court of Appeals for the District of Columbia Circuit, which was dismissed in January 2003 at PanAmSat’s request. Notwithstanding the fact that the Bureau’s action does not seem to be the kind of revocation action contemplated by question 36, Intelsat is herein making note of the decision in the interest of absolute candor and out of an abundance of caution. In any event, the Bureau’s action with respect to PanAmSat does not reflect on Intelsat’s basic qualifications, which are well-established and a matter of public record.

¹ All licenses previously held by PanAmSat Licensee Corp. have been assigned to Intelsat License LLC. See IBFS File Nos. SAT-ASG-20101203-00252 (granted Dec. 23, 2010), SES-ASG-20101203-0150 (granted Dec. 20, 2010), and SES-ASG-20101206-01502 (granted Dec. 20, 2010).
