January 17, 2010

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Re: Consumer Information and Disclosure Public Notice CG Docket No. 09-158, CC Docket No. 98-170,
WC Docket No. 04-36

Dear Ms. Dortch:

On January 12, 2011, ISP and other representatives met with members of the Commission to discuss issues associated with the Commission's broadband measurement and performance program. A full list of meeting attendees and slides presented by Alex Salter, SamKnows Ltd., at the meeting are attached to this filing.¹

The meeting discussions focused on proposed schedule and milestone dates for the 2012 follow-on study and report. Alex Salter presented a proposed timeline for major milestones emphasizing the key deadlines of January 20 to identify service tier data, January 30 to initiate panelist email correspondence, and February 24 to complete validation of panelist service tiers. Walter Johnston, Chief, Electromagnetic Compatibility Division, and James Miller, Senior Attorney Advisor discussed policy proposals for the limited release of results in advance of the report, and revisions to the program's code of conduct. Further discussion of two separate collaborative open meetings to be focused on the further development of industry standards based on the measurement technologies of the program, and consumer-focused visualization tools of broadband performance data were also discussed.

The group discussed a regular three-week meeting schedule for the coming months, in order to follow the operational issues of the Commission's 2012 study efforts.

Sincerely,

A handwritten signature in black ink, appearing to read "Walter Johnston".

Walter Johnston, Chief
Electromagnetic Compatibility Division/OET

¹ SamKnows Ltd. presentation materials are attached to this filing in Appendix A.

Attendees

Name	Organization
Ken Ko	Adtran
Paul Jamieson	Cablevision
Jeb Benedict	Centurylink
Jeff Hubbard	Centurylink
