Re: LightSquared Subsidiary, LLC
Ex Parte Communication. IB Docket No. 11-109
IBSF File No. SAT-MOD-20101118-00239

Dear Ms. Dortch,

I am writing on behalf of myself and other land surveyors in my state to express our major concern. We are driving to make it clear that LightSquared should not be allowed to go forward until it is shown that their plan will not interfere with high-precision GPS. Not only will the surveying industry be harmed, but so will the hundreds of thousands of people who use the data surveyors produce. As a user of high-precision GPS, we oppose LightSquared's request (which ignores the recent independent test results) to affirm its license and its request to go forward with its plan.

Respectfully submitted,

Anthony P. Lulloff
Vice President-Manager
