

I am writing regarding the NFL blackout rules. I find the current blackout rules to be particularly unfair. New York State taxpayers give the Buffalo Bills millions of dollars a year in subsidies. Currently, they are asking for up to 100 million for stadium renovations. I feel if the NFL and the Bills want public subsidies for stadiums, they should not be allowed to blackout games.

I live approximately 1.5 hours from the stadium and I am regularly subjected to the current blackout rules. Please do the right thing and stand up for the fans and tax payers.

Thank you,

James Hondorf
