Ex Parte Communication. IB Docket No. 11-109  
IBSF File No. SAT-MOD-20101118-00239

Federal Communications Commission  
Office of the Secretary

Dear Marlene,

As a user of high-precision GPS, I oppose LightSquared's request for the FCC to affirm its license and its request move forward with its plan. I believe that LightSquared should not be allowed to go forward until it is shown that their plan will not interfere with high-precision GPS, as was indicated by independent testing. Not only will the surveying industry be harmed, but so will the hundreds of thousands of people who use the data surveyors produce. Please take this request into consideration when deliberating on the issue.

Sincerely,

Daniel R. Ebuna  
Senior Hydrographic Surveyor  
Fugro Consultants
