PETITION FOR SPECIAL RELIEF

Comcast Cable Communications, LLC, on behalf of its subsidiaries and affiliates (“Comcast”), pursuant to Sections 76.7 and 76.907 of the Commission’s rules,¹ requests that the Commission find that Comcast’s cable operations face “effective competition” in the above-captioned Maryland franchise areas (collectively the “Franchise Areas”).

The Communications Act of 1934, as amended (the “Act”), and the Commission’s rules provide that cable television rates may be regulated only in the absence of effective competition.² Cable operators are entitled to demonstrate that effective competition exists on a franchise-by-franchise basis.³ When a cable operator demonstrates that effective competition exists within a franchise area, cable rates in the affected area are no longer subject to regulation.⁴

¹ 47 C.F.R. §§ 76.7 and 76.907.

² 47 U.S.C. § 543(a)(2); 47 C.F.R. § 76.905(a).

³ 47 C.F.R. § 76.907.

⁴ See *Implementation of Sections of the Cable Television Consumer Protection and Competition Act of 1992, Rate Regulation*, 8 FCC Rcd. 5631, 5664-5665 (1993) (“Rate Order”).

Under the “competing provider” test set forth in Section 623(1)(1)(B) of the Act and Section 76.905(b)(2) of the Commission’s rules (the “Competing Provider Test”), a cable system will be deemed subject to effective competition if:

- (i) the franchise area is served by at least two unaffiliated multichannel video programming distributors (“MVPDs”), each of which offers comparable programming to at least 50 percent of the households in the franchise area; and
- (ii) the number of households subscribing to multichannel video programming other than the largest MVPD exceeds 15 percent of the households in the franchise area.⁵

As demonstrated below, the Competing Provider Test is satisfied in the three Franchise Areas – Aberdeen, Bel Air, and Havre de Grace - because two unaffiliated DBS providers serve over 50 percent of the Franchise Area’s households with comparable programming and the aggregate penetration rate reported for “Competing Providers” exceeds the 15 percent threshold in each of the Franchise Areas.⁶

I. THE COMPETING PROVIDER TEST IS SATISFIED IN THE FRANCHISE AREAS

The two prongs of the Competing Provider Test are straightforward and objective. Both prongs of this Test are clearly satisfied in each of the Franchise Areas.

⁵ 47 U.S.C. § 543(1)(1)(B)(i) and (ii); 47 C.F.R. § 76.905(b)(2)(i) and (ii).

⁶ In the Havre de Grace Franchise Area, Comcast is relying solely on DBS subscriber data. In the Aberdeen and Bel Air Franchise Areas, the competing penetration figure includes subscribers from local MVPD competitor Verizon, as well as from the two major DBS providers. Supporting material regarding Verizon is included where relevant.

A. More Than Two Unaffiliated MVPDs Offer Programming Comparable to Comcast to Over 50 Percent of the Households in the Franchise Areas.

The first prong of the Competing Provider Test requires that a franchise area must be served by “at least two unaffiliated multichannel video programming distributors...”⁷ This requirement is easily satisfied, because the two major direct broadcast satellite providers (DirecTV, Inc. and Dish Network, Corp.) (“DBS Providers”) are unaffiliated with Comcast and “offer” programming that is comparable to Comcast to more than 50 percent of the households in Comcast’s Franchise Areas.

Service of an MVPD will be deemed “offered” when it is both *technically* and *actually* available.⁸ The Commission has determined that DBS service is presumed to be “technically available” throughout the country due to its nationwide satellite footprint.⁹ Comcast’s Franchise Areas are well within the satellite footprint of DirecTV and Dish Network. Thus, both DirecTV and Dish Network are “technically available” in the Franchise Areas.

DBS service is presumed to be “actually available” if households in a franchise area are made “reasonably aware” that the service is available.¹⁰ The Commission has stated that “a party may use evidence of penetration rates in the franchise area (the second prong of the competing provider test ...) coupled with the ubiquity of DBS services to show that consumers are

⁷ 47 U.S.C. § 543(1)(1)(B)(i); 47 C.F.R. § 76.905(b)(2)(i). Section 602 of the Communications Act of 1934, as amended, defines “multichannel video programming distributors” to include cable operators, as well as DBS and MMDS providers. See 47 U.S.C. § 522(13).

⁸ *Rate Order*, ¶ 29.

⁹ See *MediaOne of Georgia, Inc; Petition for Revocation of the Certification of Gwinnett County, Georgia*, 12 FCC Rcd. 19406, ¶ 5 n.16 (1997) (citing *Rate Order*, at 5660-5661).

¹⁰ See *Rate Order* at ¶ 32 (citations omitted). See also *Charter Communications, LLC d/b/a Charter Communications Petition for Determination of Effective Competition in Fourteen North Carolina Communities, et al*, 19 FCC Rcd. 7003, ¶ 4 (2004).

reasonably aware of the availability of DBS service.”¹¹ The same reasoning applies here.

DirecTV and Dish Network are among the largest MVPDs in the nation.¹² With approximately 33.6 million subscribers nationwide,¹³ comprising over 33.6 percent of all MVPD subscribers,¹⁴ ubiquitous advertising, and the substantial DBS penetration figures in the Franchise Areas, it is clear that consumers in the Franchise Areas are “reasonably” aware of the availability of DBS competitors.¹⁵

¹¹ *Comcast Cable Communications, LLC Petition for Determination of Effective Competition in Various Michigan Communities*, 23 FCC Rcd. 9595, ¶ 5 (2008), citing *Mediacom Illinois LLC et al., Eleven Petitions for Determination of Effective Competition in Twenty-Two Local Franchise Areas in Illinois and Michigan*, 21 FCC Rcd. 1175 (2006) (“*Comcast – Various Michigan Communities*”). Thus, the Commission has not required the production of advertising to demonstrate that households in the franchise area are “reasonably aware” of the availability of DBS service. See *Bright House Networks, LLC Petition for Determination of Effective Competition (Lake Alfred and Dundee FL)*, 22 FCC Rcd. 4390, ¶ 6 (2007) (“Over more than ten years, we have made hundreds of findings that households in particular franchise areas are reasonably aware that they may purchase DBS services based on localized evidence. These accumulated showings amount to substantial evidence that households in all franchise areas are reasonably aware that they may purchase DBS services. In at least one earlier reported decision, we found households in a franchise area to be reasonably aware that they may purchase DBS service solely based on evidence of DBS’s nationwide growth and local subscriptions, without reference to advertising or other promotion.”) (“*Bright House Networks – Florida*”).

¹⁴ Press Release, SNL Kagan’s *U.S. Multichannel Subscribers 4th Quarter 2010 Results*, SNL Kagan, March 15, 2011, available at <http://www.snk.com/InTheMedia.aspx> (reporting approximately 100.1 million video subscribers in the U.S.).

¹⁵ See, e.g., *Comcast – Various Michigan Communities*, ¶ 5; *Bright House Networks – Florida*, ¶ 6.

The Competing Provider Test also requires that the programming offered by the competing providers must be “comparable” to the programming offered by the cable operator.¹⁶ The Commission’s rules define comparable programming as “at least 12 channels of video programming, including at least one channel of nonbroadcast service programming.”¹⁷ The Commission has repeatedly recognized that the DBS Providers offer comparable programming to Comcast under the Commission’s Competing Provider Test.¹⁸ Each of the DBS Providers offer well over 100 video channels, most of which are non-broadcast services.¹⁹ And, as shown in the attached channel line-up, Comcast’s programming service offerings in the Franchise Areas are substantially similar to the DBS programming services.²⁰

Based on the above facts, Comcast has satisfied the first prong of the Competing Provider Test.

B. The Competing Providers Serve Greater Than 15 Percent of the Households In Comcast’s Franchise Areas.

The second prong of the Competing Provider Test requires that the subscriber base of competing MVPDs, other than the largest MVPD, exceeds 15 percent of franchise area households. The Commission rules provide that once this first prong of the Competing Provider Test is satisfied, as it is with the DBS service offerings in this case, the subscribers of *all* qualifying MVPDs count toward the 15% penetration figure necessary for a determination of

¹⁶ See 47 U.S.C. § 543(1)(1)(B)(i); 47 C.F.R. § 76.905(b)(2)(i).

¹⁷ 47 C.F.R. § 76.905(g).

¹⁸ See, e.g., *Comcast Cablevision of Maryland, Inc., Petitions for Determination of Effective Competition (Charles County, MD)*, 19 FCC Rcd. 7130, ¶ 4 (2004) (“We find that the programming of DBS providers satisfies the Commission’s program comparability criterion because DBS providers offer more than 12 channels of video programming, including more than one non-broadcast channel.”).

effective competition (even if they are not available themselves to more than 50% of local households).²¹ Accordingly, as noted above, the Competing Provider subscriber tallies presented in this Petition for the Aberdeen and Bel Air Franchise Areas include subscribers from Verizon, as well as from the two major DBS providers.

Comcast obtained Verizon’s subscribership in the Franchise Areas directly from MVPD competitor Verizon.²² As shown in Exhibit 4, Verizon provides competing cable service in the Aberdeen and Bel Air Franchise Areas.²³

The process of determining the precise number of DBS subscribers within a franchise area is not an exact science because DBS Providers track their subscribers according to the zip codes where each subscriber resides, rather than by political jurisdiction. In this case, Comcast relied on ZIP+4 codes associated with the Franchise Areas in order to determine the number of DBS subscribers within the Franchise Areas. The Commission has previously accepted ZIP+4

²¹ See 47 C.F.R. § 76.905(f) (Emphasis added); see also *Time Warner Entertainment Co., L.P. et al. v. FCC*, 56 F.3d 151 (D.C. Cir. 1995) (holding that the subscriber ownership of all MVPDs, other than the largest MVPD, may be aggregated to satisfy the 15 percent threshold).

²² Verizon’s “comparable” channel lineup is set forth in Exhibit 3.

²³ Verizon’s subscribership information was provided to Comcast on the condition that Comcast would seek confidential treatment with respect to such information. Accordingly, Comcast hereby requests that the Commission grant confidential treatment to Verizon’s subscriber information and provide Verizon a reasonable opportunity to procure confidential treatment of such information prior to disclosure if the Commission objects to treating the information confidentially. Comcast submits Verizon’s subscriber figures for the Franchise Areas as **Confidential Exhibit 4** to this Petition (with a separately-submitted redacted version for inclusion in the public file).

codes as “reasonable and sufficiently reliable for purposes of determining the presence of effective competition,”²⁴ and previously has stated its preference for this approach.²⁵

To determine the relevant ZIP+4 codes for the Franchise Areas, Comcast contacted Media Business Corp. (“MBC,” previously known as “SkyTrends”). MBC has developed a process to accurately identify the ZIP+4 codes that correspond with the political boundaries of a particular community. This process utilizes enhanced mapping software that correlates ZIP+4 codes with the U.S. Census Department’s “block group” level households. The “block group” measurement is the most precise Census tool available to measure households within a very small geographical area. With this software, MBC was able to identify the ZIP+4 codes that lie within each of the three Franchise Areas.²⁶

Comcast next provided all of the ZIP+4 codes for the Franchise Areas to the Satellite Broadcasting and Communication Association (“SBCA”). SBCA is the national trade association representing the two major DBS Providers, and it has assumed the responsibility for compiling subscribership data and responding to data requests from cable operators and franchising authorities engaged in effective competition proceedings. The DBS subscriber numbers reported in the attached Effective Competition Tracking Reports (“ECTR”) from SBCA

Petition for Determination of Effective Competition in Pocatello, Idaho*, 18 FCC Rcd. 12792, ¶ 8 (2003), quoting *Falcon Cable Systems II, a California Limited Partnership, d/b/a Charter Communications Petition for Determination of Effective Competition in Twelve Oregon Cities*, 17 FCC Rcd. 4648 (2002).

reflect the total DBS subscribers within the individual ZIP+4 codes associated with each of the Franchise Areas.²⁷

Finally, Comcast compared the subscribership figures reported by SBCA and, where applicable, Verizon, and was able to confirm that its own subscribership exceeded DBS and Verizon subscribership in each of the Franchise Areas. Comcast is clearly the largest MVPD in the Aberdeen, Bel Air, and Havre de Grace Franchise Areas.

To determine whether the Competing Provider subscribership exceeds the statutorily mandated 15 percent threshold in the Franchise Areas, Comcast compared the Competing Providers' subscribership to the most recent U.S. Census occupied household unit figures for each community.²⁸ This comparison yields the aggregate penetration rates for Competing Providers in each of the Franchise Areas.

As detailed in **Confidential Exhibit 8**, the aggregate subscriber penetration rate for the DBS Providers (and, where applicable Verizon) exceeds the 15 percent threshold required under Section 623(1)(1)(B) of the Act.²⁹ Accordingly, Comcast meets the second prong of the Competing Provider Test.

²⁷ See Exhibit 6 (providing total ZIP+4-based DBS subscribership for the Franchise Areas, as well as all ZIP+4 data relied on in the Petition).

²⁸ The occupied household numbers for the Franchise Areas was obtained from the 2010 U.S. Census, available at <http://www.factfinder2.census.gov>, the relevant pages of which are attached hereto as Exhibit 7.

²⁹ As noted above, Comcast is seeking confidential treatment with respect to the Verizon subscribership data for the Aberdeen and Bel Air Franchise Areas. Accordingly, Verizon's penetration rate, as well as the combined DBS provider and Verizon subscriber penetration rate for these two Franchise Areas is submitted as part of **Confidential Exhibit 8** to the Petition (with a separately-submitted redacted version for inclusion in the public file).

Because Comcast meets both prongs of the Competing Provider Test in the Franchise Areas, it faces effective competition in the Aberdeen, Bel Air, and Havre de Grace Franchise Areas.

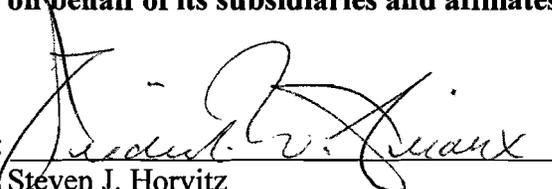

CONCLUSION

Comcast has demonstrated herein that it is subject to effective competition in three Franchise Areas under the Competing Provider Test. Based on the evidence presented herein, Comcast respectfully requests that the Media Bureau issue an order acknowledging the presence of effective competition in each of the three Maryland Franchise Areas as of filing date of this Petition.

DECLARATION OF WARREN FITTING

I, Warren Fitting, declare, under penalty of perjury that:

1. I am the Senior Director of Regulatory Accounting for Comcast Cable Communications, LLC (“Comcast”).
2. I have read the foregoing Petition for Special Relief (“Petition”) and am familiar with the contents thereof and the matters referred to therein.
3. I have reviewed Comcast’s respective cable subscriber numbers for the Franchise Areas at issue in this Petition, the DBS subscriber numbers provided by SBCA for the individual Franchise Areas, and the Verizon subscriber numbers as described in the Petition. Comcast is the largest multichannel video program provider in the Aberdeen, Bel Air, and Havre de Grace Franchise Areas.
4. The facts contained within the Petition are true and correct to the best of my knowledge, information and belief.
