RE: Combined application for consent to the transfer of control of a business which has Blanket Domestic Interstate 214 Authority - Transfer of Keywest Communications (USA) Inc. From Key West Global Telecommunications Berhad to Sifa Technology Limited
Docket No. WC-12-7

Dear Sir or Madam:

Please find below responses to Staff's question regarding the types of telecommunications services provided by both Keywest Communications (USA) Inc. ("KCUSA") and Sifa Technology Limited ("SIFA").

SIFA does not currently provide any telecommunications services at present but will following consummation of the transaction. As for KCUSA, it presently provides wholesale international telecommunications services to domestic US carriers. The calls are originated by the wholesale carriers with whom KCUSA has contracts and are least cost routed to KCUSA for overseas termination. KCUSA does not provide services to any end-user customers within the United States. It only provides international services on a carrier-to-carrier basis.

Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Leon Nowalsky *LN*
