Hi, we have been providing captioning services for over a dozen years and fully understand the CCing process.

With the constraints mentioned below -- CCing can not be done.

Even having a CCing system on-site wouldn't meet your time constraints.

If you could change the schedule, seems you can't, we'd be interested in providing captions services for you.

Subject: Captions;

Candace, Thanks for your inquiry. I appreciate the information. Unfortunately, in order for us (or any remote captioning company) to provide captions for your broadcast, either the production facility for the broadcast, or the station airing the broadcast must be able to; one, provide us with the live audio, and secondly; we must be able to deliver those captions back to an encoder (captioning facility). We know of no other way to deliver those captions for television/cable airing. We do stream captions to websites, but again we would still need to be able to obtain the live audio. Sorry...best
