THE PROPOSED FACILITY MAKES NO CHANGES TO THE CURRENT LICENSED OPERATION WITH THE EXCEPTION OF CHANGING TO A NON-DIRECTIONAL ANTENNA ON CHANNEL 236C3. THE COVERAGE TO THE COMMUNITY OF LICENSE WAS REVIEWED UNDER BOTH STANDARD PREDICTIVE METHOD AND LONGLEY-RICE STUDY (SEE ATTACHED EXHIBITS). IN THIS AREA THE TERRAIN DEPARTS WIDELY ON MANY RADIALS FROM THAT OF THE TERRAIN BETWEEN 3 TO 16 KILOMETERS. THIS DEPARTURE IS APPARENT WHEN REVIEWING THE LONGLEY-RICE EXHIBIT. USE OF A SUPPLEMENTAL SHOWING TO SUPPORT THE CURRENT OPERATION/PROPOSED OPERATION IS WARRANTED GIVEN THE WIDELY DEPARTING TERRAIN CHARACTERISTICS. THE LONGLEY-RICE STUDY DEMONSTRATES A SIGNIFICANT BOOST IN COVERAGE IN THE DIRECTION OF BONANZA WHEN COMPARED TO THE STANDARD PREDICTIVE METHOD. IT IS NOTEWORTHY TO STATE, THE APPLICANT PROPOSING NO CHANGE IN THE TOWER HEIGHT, TOWER LOCATION, EFFECTIVE RADIATED POWER, ANTENNA HEIGHT FROM THE CURRENT LICENSED OPERATION WHICH HAS BEEN LICENSED AND SERVING BONANZA, THE COMMUNITY OF LICENSE, FOR NUMEROUS YEARS. THE PROPOSED OPERATION BY DROPPING THE DIRECTIONAL ANTENNA WILL IMPROVE COVERAGE TO THE REGION, INCREASE SERVICE TO THE PUBLIC, AND PROVIDE A BETTER USE OF THE SPECTRUM WHEN COMPARED TO THE CURRENT CHANNEL.

Prepared By:

Edward P De La Hunt

De La Hunt Communication Services

Applicant: Basin Mediactive, LLC.

I am a Radio Consulting Engineer. My education and experience are a matter of record with the Federal Communications Commission. I have been authorized to prepare this statement and exhibits to review the multiple ownership surrounding the proposed assignment of the above-captioned stations from New Northwest Broadcasters to Basin Mediactive, LLC. This statement and attached exhibits demonstrate full compliance with the Commission's Multiple Ownership rules.

There is mutual overlap of the principal community contours of proposed commonly owned stations as depicted in **Figure 1**. For FM stations, the principal community contour is the predicted 3.16 mV/m (70 dBu) contour computed in accordance with Section 73.313 of the FCC Rules. For AM stations, the principal community contour is the predicted daytime 5.0 mV/m groundwave contour computed in accordance with Section 73.183 of the FCC Rules.

The stations are not home to an Arbitron rated market.

Multiple Ownership Rules

Section 73.3555 of Commission's Rule and Regulations

(a)(1) Local radio ownership rule. A person or single entity (or entities under common control) may have a cognizable interest in licenses for AM or FM radio broadcast stations in accordance with the following limits:

(i) In a radio market with 45 or more full-power, commercial and noncommercial radio stations, not more than 8 commercial radio stations in total and not more than 5 commercial stations in the same service (AM or FM);

(ii) In a radio market with between 30 and 44 (inclusive) full-power, commercial and noncommercial radio stations, not more than 7 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM);

(iii) In a radio market with between 15 and 29 (inclusive) full-power, commercial and noncommercial radio stations, not more than 6 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM);

(iv) In a radio market with 14 or fewer full-power, commercial and noncommercial radio stations, not more than 5 commercial radio stations in total and not more than 3 commercial stations in the same service (AM

or FM); provided, however, that no person or single entity (or entities under common control) may have a cognizable interest in more than 50% of the full-power, commercial and noncommercial radio stations in such market unless the combination of stations comprises not more than one AM and one FM station.

The analysis herein is subject to the above-noted rules highlighted in bold. Section 73.3555(a)(1)(iii). One relevant "market" will exist, the worst case market. This market is defined by the 70 dbu and 5 mV/m contours of KAGO(AM), KAGO(FM), KLAD(AM), KALD(FM) and KYSF(FM).

Market

KAGO(AM)– Klamath Falls, OR 1150 kHz
KAGO(FM) – Klamath Falls, OR 99.5 MHz
KLAD(AM) – Klamath Falls, OR 960 kHz
KLAD(FM) – Klamath Falls, OR 92.5 MHz
KYSF(FM) – Bonanza, OR 102.9MHz

Market consists of five (5) commercial radio stations under common control. Since no more than 5 commercial radio stations and no more than 3 stations are in the same service, the proponent may control no more than 50% of the stations in the relevant market of 14 stations. However, in the present case, the relevant market consists of 16 stations. The maximum combination of stations comprises of, not more than 6 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM). In the present case, no more than 5 commercial radio stations and no more than 3 stations are in the same service is proposed the applicant is in full compliance; **(2) AM** stations and **three (3) FM** stations.

A search for other non-commonly owned stations in the region was conducted to determine other FM and AM radio stations that provide principal community grade service to a portion of the proposed radio market. Radio stations outside of 92 kilometers were not considered. The search rendered at a minimum eleven (11) additional FM licensed stations relevant to the market:

KLMF(FM), Klamath Falls, OR;
KKLJ(FM), Klamath Falls, OR;
KTEC(FM), Klamath Falls, OR;
KSKF(FM), Klamath Falls, OR;
KTMT(FM), Medford, OR;
KFLS(FM), Tulelake, CA;
KRVC(FM), Hornbrook, CA;
KFEG(FM), Klamath Falls, OR;
KKKJ(FM), Merrill, OR;
KKRB(FM), Klamath Falls, OR;

KFLS(AM), Klamath Falls, OR

Table 1 depicts other stations serving the market.

CONCLUSION

The applicant would be in compliance with the Commission's Multiple Ownership limits because the proponent would not control more than 50% of the stations in the relevant market of 14 stations; and worst case, not more than 6 commercial radio stations in total and not more than 4 commercial stations in the same service (AM or FM) for a radio market between 15 and 29 stations. The proposed common ownership comprises of only two (2) AM station and only three (3) FM stations, a total of five (5) stations. The relevant market consists of at a minimum sixteen (16) stations.

This statement and attached exhibit was prepared by me or under my direct supervision and is believed to be true and correct.
