

**Re; Verizon Wireless, Cellco, SpectrumCo Transfer of Licenses**

**12-4**

**Partial Opposition**

I am writing in opposition to this transaction due to the issue of the undisclosed yet rumored marketing agreements that would inhibit consumer choice by limiting competition due to a partnership between Verizon Wireless and the cable cartel. It must be investigated and opposed.

I have already submitted evidence for the record, including comments, statements for the record, submissions for the record, requests. Petitions for review and petitions to deny in addition to an opposition and now submit a partial opposition. I have serious concerns about Verizon Wireless getting this 700 MHZ of AWS wireless spectrum if it prevents smaller carriers from getting spectrum they need an if the marketing agreements are allowed to take place.

Please investigate this and put a stop to it asap.
