

I continually receive "YOUR VOICE COUNTS" pop-up. It is asking me to take a survey. Unfortunately, I finally agreed, just to get them off my back. I think it was a bogus survey. It listed every country possibly, except the U.S. Then the 2nd and last question was whether I was male or female. It's from VOICE FIVE and has popped up twice since I have been writing this complaint. There is no button to unsubscribe.

PLEASE HELP ME. Is VOICE FIVE retrieving my personal info. from the computer. The pop-ups are very frequent and the survey is bogus.
