

They Charge us for cable, Part of the reason I pay for cable is to watch sporting events like San Diego Charger games. To black us all out because we didnt sell out the stadium is blackmail. The NFL is the only sport allowed to do this. Baseball is 162 games and rarely is a game not available. Why should the NFL, Charge us taxdollars to have a stadium in place, and the cable company charging us to watch the games, be allowed to "punish" those of us who didnt buy a ticket? This policy is unfair and somebody should have done something about this a long time ago. End the NFL blackout policy Now.
