**REQUEST FOR EXEMPTION FROM COMMISSION'S CLOSED  
CAPTIONING RULES**

**Please accept this letter in behalf of "Inside Utah" a non-profit weekly television show aired on KCSG Television Sunday's at 9:30 in St George Utah and DMA - SLC.**

Compliance would impose an "undue economic burden," as defined in Section 79.1(f) of the Commission's rules, 47 C.F.R. § 79.1(f).1

This show is a student run program which uses hand held video cameras and stock iMovie editing software. Therefore we do not have the funds or resources to provide closed captioning. Since the program does not generate revenue and all production is accomplished by volunteers, there is no way to afford closed captioning. Furthermore our delivery system to the station is done through a digital cloud from all over the state making it impossible to bring the content together. Options have been explored to pay or receive sponsorship to have KVSG provide closed captioning, but we have been informed that they don't have the recourse or money either and don't have the employee man power required to fulfill this request either.

We are willing to take the necessary steps in order to comply with all regulations. Please let us know if there is any further action we can or need to take.

"I Mark Harmsen (soc # ~~0000000000~~), producer of KCSG's Inside Utah agree and support the above statement.

Sincerely,

Mark Harmsen  
Producer
