I am communicating with you in regard to the licensing of Light Squared GPS. We own and operate a family farm in North Central Iowa where we use GPS systems in all of our farm equipment. The use of GPS has enabled us to farm more efficiently, use less fertilizer and improve the environment. The materials that we use to produce crops are applied in a more accurate and safe manner. Please do not put all of agricultures GPS systems in jeopardy by issuing a license for light squared. Progress would be impeded with such a handicap on GPS and our pocket books.

Thank you

Roy and Jeanie Arends

RE: LightSquared Subsidiary, LLC
Ex Parte Communication. IB Docket No. 11-109
IBSF File no. SAT-MOD-20101118-00239

As a user of a commercial high precision GPS receiver, I OPPOSE LightSquared's request for a Declaratory Ruling, in the belief that I have a standing to file petitions with the FCC to protect my investment and my livelihood.

Sincerely,

Shirley M. Gillespie
