

Regarding: LightSquared" We rely on the FCC to protect the integrity of the GPS signal & that you support their recommendation to stop LightSquared's current proposal. All studies show that LightSquared's proposed network would cause interference & that there are NO REMEDIES. We use the GPS on land & water. I am asking the FCC to protect the GPS signal by saing "NO" to LightSquared's current proposal.

Thank you,

Marsha D. Strock
