

To FCC Commissioners Genachowski, Clyburn and McDowell:

As a student in high school, I have learned that when America was new there were corrupt politicians, meat factories that were giving rotting meat to citizens for food, and child labor factories. These problems were solved and publicized by the muckrakers. Investigative journalism has the opportunity to right the wrongs in America, and around the world. currently, investigative journalism is collapsing. With the lift of this man, media monopolies will form, pushing out and destroying the muckrakers completely. This ban, if lifted, will be devastating to all citizens. The diversity in america is a source of pride for all, the lifting of this ban will not only destroy a source of diversity, but a great sense of national pride. Please do not lift this ban.

Regards,

Alexandra Burness
