

As CEO of New X Drive Inc. A Company Designing a Digital Education platform. To bring American Children's Education to par with rest of the world. General GPS Products are not used as much as they were at one time. Cell phones out sale GPS 20 to 1 as most cell phones have GPS. That is more accurate then the general GPS Units. Light Squared is what we need broadband to every american at a cost of 1/3 then the FCC predicted. It Time The United States Government Stands Up for The American People. And American Companies. Allow LightSquared to begain so all Americans can benifit. Does the GPS companies need us to build them a better product.
