

To FCC Commissioners Genachowski, Clyburn and McDowell:

Do not lift the ban on TV−Newspaper dual−ownership. Democracy requires an informed public, and as such the growth of media conglomerates to the size that they can manufacture their own truth is an affront to the free democratic process. By allowing dual−ownership, you open up the potential for near monopolies of the entire information spectrum, resulting in a state of untruth that benefits private corporations but is a death knell to the Republic. You cannot let this happen.

Regards,

Chris
