

To FCC Commissioners Genachowski, Clyburn and McDowell:

<br />

<br />Lifting the ban on being able to monopolize Media Outlets is a horribly bad idea. The private sector is the most important part of the United States as we know it, and the ban is one of the things that keeps it as such. Lifting the ban would allow the corporate sector to expand, thus conquering the private sector, seeing as creating a monopoly would only benefit the people who would own them.

<br />

<br />In the past, monopolies have always lead to some sort of bad outcome. In the current economic times, having one person or one company controlling all media outlets could cause the prices to increase because of their greed for a profit. Even then, if one company has control over all media outlets, they could easily censor anything and everything the people see. This is nothing better than SOPA and PIPA, which American Citizens stopped before.

<br />

<br />This is simply a bad idea. It needs to be stopped as soon as possible, and the ban needs to remain. We, the people of the United States, do NOT want this ban gone!

<br />

<br />Regards,

<br />
