Re: Notice of Oral *Ex Parte* Presentation
WT Docket No. 07-293; IB Docket No. 95-91

Dear Ms. Dortch:

In accordance with Section 1.1206 of the Commission's rules, 47 C.F.R. § 1.1206, this letter notifies the Commission that on March 8, 2012, representatives from Sirius XM Radio Inc. ("Sirius XM") met with staff from the Office of Engineering and Technology ("OET") and the Wireless Telecommunications Bureau ("WTB"). Participating in the meeting were Terrence Smith, Craig Wadin, Riza Akturan and James Blitz from Sirius XM, and myself. We met with Julius Knapp and Ron Repasi from OET and Tom Peters from WTB.

Consistent with previously filed positions,¹ Sirius XM urged the Commission to reject the WCS Coalition's recommendations to eliminate or modify the power spectral density limits and the WCS uplink duty cycle limits. Sirius XM expressed concern over the impact to its subscribers if the Commission were to further relax these specifications for WCS devices and recommended that the Commission adopt an objective standard for defining harmful interference. Sirius XM also referred the staff to previously filed comments that demonstrate the interference impact from increasing duty cycle limits.²

Please let me know if there are any questions about this submission.

Dortch, Secretary, Federal Communications Commission, WT Docket No. 07-293, (filed January 11, 2012) (the "January 11 Ex Parte").
