

I want more competition in cellular service that will help reduce prices, and LightSquared will bring new competition to big cellular companies with high prices.

I want better coverage and service reliability, especially in rural America, and LightSquared will provide it.

I want more cellular capacity so that more calls can go through in an emergency, and LightSquared will deliver extra, desperately-needed infrastructure.

I want LightSquared to have a fair chance to bring their offerings to underserved and overpriced cellular service.

In Maine we have very limited choices on cell phone providers. The few we do have are fully aware of their capability to charge what they want. I do think we need more options here. Please do not allow the continuance of their outrageous billing.

Thank you.
