

Diversity, is but a buzz word, for the Left. They want no station, radio, T.V. nor Cable to be on the air with a center or right political points of views!

That Sirs, if a frontal attack upon Free-speech! No matter the title, the label, it's nothing more than censorship, and the free-market should decide, not George Soros and his cronies. The left has the preponderance of the mass media of Broadcast Radio and T.V, as well as most newspapers, yet they want to eliminate Fox News, Rush et-al.

Please allow free-speech to rule in the free-market of ideas, otherwise we shall be close to what it was in the Dark Ages my way or die!
