Political File

YES NO

Does the public file contain a political file?

If so, how many years of records does the political file contain?

6 years from 2006-2012

Each folder has a header with the name of the candidate or third-party group. Write down the names of all the folders in the political file for both 2011 and 2012. Choose three third-party group folders (we recommend choosing examples from both right-wing and left-wing groups) and request copies.

Only saw two most recent political file folders for 2012. Folder names are Citizens for Responsible Law Enforcement & Restore Our Future

If you need more room, feel free to write on the back.
